ANNOUNCING THE FORMATION OF GREENBERG ADVISORS

Specialists in M&A, Capital Raising, and Strategic & Operational Advisory in the ARM industry

WASHINGTON, DC – April 13, 2009 – Brian Greenberg, one of the most trusted and experienced advisors to the Accounts Receivable Management (ARM) industry, announces the formation of Greenberg Advisors, LLC (GA). The firm continues Greenberg’s unparalleled success in working closely with owners, executives and investors worldwide to achieve their goals in the ARM sector. Since 1996, Greenberg has completed nearly \$1.5 billion in M&A and corporate finance transactions through more than 60 ARM engagements.

In addition to the advisory services that Greenberg is known for, namely Mergers & Acquisitions and Strategic Advisory, Capital Raising, and Valuations, GA will offer operational advisory services through selected partners. These expanded services are designed to enhance profitability, improve or establish analytical processes, and optimize portfolio yields for servicers and purchasers of consumer and commercial receivables.

According to Greenberg, “The combination of these services is critical in today’s collection environment for firms seeking increased profit margins, business growth, and ultimately, enhancement of franchise value. For some industry participants, these services are vital to their survival. Greenberg Advisors fills a void in the ARM market for an advisor that can seamlessly tie together strategic and operational insights to guide clients with high-quality comprehensive advice for achieving their goals. I believe we will change the way the industry views its advisors.”
